Physical description

Three engraved maps bound together, damage to edges and corners, some foxing, otherwise good condition.

Dimensions**Notes**

This booklet appears to be assembled-to-order for a particular client, for shipboard use presumably for a mariner active in northern waters, hence the “well-handled” appearance of the charts.

Bibliography

The first and second charts are unrecorded in Koeman, *Atlantes Neerlandici*; chart 3 is his p. 385, chart [158].
